"Grand Master

Of Kentucky Masons, R. R. Burnum, a Most Prominent Mason" says Journal,

The Masonic House Journal, one of the leading Masonic publications in Kentucky and the United States, contains the following excellent article this week concerning the Masonic career of Grand Master Robert R. Burnum, who is one of Richmond's leading citizens. "The Masonic career began early in life, probably because his people have nearly all been members of the order. His maternal grandfather, Dr. A. W. Robinson was the first Master of Richmond Lodge No. 25. Brother Burnum was made a Mason in Richmond Lodge No. 25 in June, 1868, and was elected Secretary of the same on the following St. John's day. He served the craft as such for several years. He received the eight degrees of Masonry in Richmond Royal Arch Chapter No. 16 in 1881, and was elected Principal Sovereign that same year. The next year he was elected High Priest of this chapter and attended the Grand Chapter.

He was knighted in Richmond Commandery No. 19 in 1883, while Past Grand Commander Sam H. Stone was its Commander. He was first elected Master of his Lodge in December, 1888, and has served repeatedly since in that capacity. He has also been High Priest of his chapter and commander of his Commandery many times. Never refusing to serve either body when they needed his services, but always willing to give way to others. He was made a Council Master at Richmond when the council degrees were conferred in the chapter. After the separation he was located in London Council and retained his membership there. He took the Shrine at Louisville in 1904, Temple, but when Orlan Temple was organized at Lexington, transferred his membership there. Our newly elected Grand Master was intimately associated with the late Jas. Speed Smith, P. G. M., in raising the fund to establish the Home for Old Maons, now located at Shelbyville. He was for a number of years Treasurer of that fund, but because of other business had to resign. He was appointed Grand Principal Sovereign of the Grand Chapter in 1909, by the Grand High Priest Speed Smith, and became the Grand High Priest himself in 1907. He was appointed to the Station of

Grand Priests in the Grand Commandery in 1906, made vacant by the death of Sir Smith, and by regular steps became the Grand Commander at Frankfort in 1907.

Few Masons in Kentucky have ever reached the esteem in which Brother Burnum is held by the craft, as shown by the honors heaped upon him. He is Past Grand Commander, Past Grand High Priest, and made most gratifying records as the head of the Grand Chapter and Grand Commandery, and that he will bring credit to the Grand Lodge is as certain as the sun shines. This is in brief the story of the life of our Grand Master—one in every way attractive and worthy of emulation. There can be no doubt, but that the craft will be safely guided while he is at the helm."

Richmond Honored

Two State Officers of Suffrage Association Reside in This City

Richmond was honored last Wednesday in Covington at the choosing of the officers for the Kentucky Equal Rights Association to serve for the ensuing year. It was one of the biggest meetings that has ever been held by the association. The following special from Covington says: At the closing session of the Kentucky Equal Rights Association, the following officers were elected:

Miss Laura Clay, president, Lexington; Mrs. Mary B. Clay, first vice president, Richmond; Mrs. Mary C. Cramer, second vice president, Lexington; N. S. McLaughlin, third vice president, Covington; Mrs. Mary Black, corresponding secretary, Richmond; Mrs. Emma Bonoback, recording secretary, Mrs. Isabelle Shepard, treasurer, Covington. The impetus given the state Association by the visit of Dr. Anna Shaw was exemplified by a resolution introduced by Mrs. John Catleman, Louisville, inviting the National convention of the American Suffrage Association to meet next April in Louisville, the guest of the Kentucky Equal Rights Association. A unanimous vote carried on a motion to this effect. Dr. Anna Shaw accepted the invitation, saying she had simply implied the desire of the national association to come to Kentucky and was delighted at the unanimous desire of the State Association to have them come. Mrs. H. Beech, life, life and accident insurance.

Republicans

Have Saddled an Immense Pension List Upon us and it is Growing

The following facts as compiled by a national writer in World's Work, is regarded to the growing pension list and the enormous sum that the people of this country, especially the South, must pay to keep up this list, will be read with much indignation. Now that the National Congress is in the power of the Democratic party and a Democratic President will shortly be at the head of the government, this gouging of the treasury for many soldiers that never smelt the smoke of battle will cease. Listen to these facts: "Gen. Robert E. Lee surrendered at Appomattox Courthouse April 9, 1865. On June 30 of that year the pension list contained 85,000 names. The wounded and the widows of the dead had not yet of course, all had time to file their claims. A year later, there were on the pension rolls the names of 120,728 men and women, among whom \$14,000,000 was that year distributed.

"On June 30, 1909, (the last fiscal year for which exact figures are obtained) four years after Lee's surrender, there were on the pension rolls the names of 968,944 persons, among whom \$161,973,708 was that year distributed. During the last fiscal year ending June 30, 1910, the roll had probably 960,000 names and the amount distributed was probably \$155,000,000.

"The people of the United States are to-day paying out in pensions annually to men and women presumed to have suffered through a war fought out and finished forty years ago, a sum ten times as great as that paid out in the year immediately following the war. The total pension payments made by the Government previous to the outbreak of the Civil War would barely pay the pension bureau to-day through two quarterly payments due pensioners under the general system which has grown out of the Civil War. "To beneficiaries from the Civil War alone, we have paid the enormous total of \$1,061,461,840—forty times as much as has been paid pensioners of all the previous wars combined. "Chamberlain's Stomach and Liver Tablets do not sicken or gripe, and may be taken with perfect safety by the most delicate woman or the youngest child. The old and feeble will also find them a most suitable remedy for aiding and strengthening their weakened digestion and for regulating the bowels. For sale by all dealers. n-lm

Thanksgiving Day

Will Be a Day of Rest for Richmond People. Services at Baptist Church.

Tomorrow is the Thanksgiving for 1919 and Richmond people will fittingly observe the occasion with rest. Beginning at 10:30 in the morning the regular Thanksgiving service will be held in the Baptist church and Rev. E. B. Barnes, pastor of the Christian church, will occupy the pulpit. The account of the popularity of this gifted speaker and minister of the gospel, the church will be glad to present his remarks. A special agitated choir will render some select music and a number of solos have been planned.

The offering at the services will go to the Patton A. Clay Infirmary and a very liberal Thanksgiving donation is expected. To contribute to such a worthy cause at this time, all should feel it is their duty.

The stores will close at noon and the banks will observe the entire day as usual. The old custom, of hunting on Thanksgiving is fast losing its life. In days gone by this was a great day to take to the fields for rabbits and quail and many parties of young ladies and gentlemen went out with the hounds and enjoyed the day chasing the game. Now it is a day of rest and after the fast quiet time is spent around the family fireside. The origin of Thanksgiving goes back to the Pilgrim Fathers and the story is a beautiful one.

These kindly associations were able to feast on wild fowl and venison in plenty to have those who came after them even upon the present day, for the forests of that part of Massachusetts abound with game, and the waters with fishes very much as in the days of the little Pilgrim and who in the Mayflower's cabin sailed on the first New England voyage. Although not set down in the story, the pilgrim feast became an informal annual function, and there can be but little doubt that Thanksgiving day is known to us of the present but its origin and was inspired by the ability of the pilgrim land to soften the angry waters of the hospitable Dutch with the spring waters of the new world, by chance said we say "to what cause shall we credit the selection of the last week of November for the day of feasting and prayer nor an equally solid for and as carefully observed as Christmas, the New Year or Independence Day? The history of this is more typically a matter of holiday than any other. It is American unity. Every country has one or more days to celebrate its independence or the granting of some great boon to its people that may be considered a step toward liberty, but the Thanksgiving day of the United States is unique in its origin and why the Government will allow them to be used in a mystery to the civil others.

Help Them.

Remember the poor in and around Richmond this winter. You have a lot of old clothes that can be put to this use. See them and assist the local charitable organizations. There are many families that are positively in need of such help.

Buy Home.

June Baxter, the popular deputy Assessor, purchased last Friday from Lewis H. Davis a house and lot on the Summit for \$2,000. Mr. Baxter has been occupying the 2-speed South home on Main street the past year, but will move his family to the new home January first.

To Dry.

If it doesn't rain now or snow come, the ground will be too dry for the farmers to smelt a quail. The fields are very dry in this section. It is possible for days to smelt a quail.

Indian Summer

According to the prognosticators we have to expect, at least for the Indian summer, beginning now and lasting until the latter part of the month, when it will turn cold sure enough. The Indian summer weather is the prettiest ever with its fiery sun shining through the smoky haze and the balmy air that makes one almost want to write poetry on our hot fire.

Forging to Front

The mountain counties in proximity to Madison are fast becoming tobacco producers. Crops from Rockcastle, Laurel, Elliott, Jackson and other counties were on the road the opening day and all brought good prices, considering the quality. While of the best, it ranked exceedingly good and shows that a very good crop can be raised on mountain land with the right kind of attention.

Pull For It

Every merchant in Richmond should have his list of names for the Madison Loan Leaf Tobacco Warehouse. Hundreds of dollars were spent here last Saturday as a result of the first day's sale and more will come in. There have been no other crops taken from Richmond to the Lexington houses, which might have been here if it were not for the fact that Lexington merchants pull for the crops to come there and the money had just as well stay here. We see loads here of the tobacco from Jackson, Elliot, Clay, Rockcastle and Laurel, besides parcels of farrow and corn and all of Madison. Home Destroyed

The elegant country home of J. H. Chinn, former State Insurance Commissioner, three miles this side of Lexington, was totally destroyed last Wednesday by fire. The blaze was probably caused by the explosion of an acetylene gas plant situated in the basement. It is now believed that the flames seemed to have started. The family were absent from home, but returned in time to see the entire place in flames. The house was built less than a year ago. The loss is \$6,000. Mr. Chinn's family resided here and his many friends in the county will regret to know of their loss.

Great Game

Is Expected in Lexington Thursday Between C. U. and State College.

The Yale-Harvard foot ball game of the South will take place next Thursday at Kentucky State College. Many Richmond people will go over to witness the contest and many of the alumni of the Central will go to be present. The game will also be the reunion of the graduates.

A movement has been on foot for many weeks to bring to Lexington every student of the school and give the Central team a big send-off and likely help to celebrate a glorious victory.

The name "Central University" is a year to Richmond people and they are proud of the great record made this year by the foot ball team representing the old institution. The team has not suffered an opponent to cross its goal for two seasons, and this year it is not defeated even in the South of any consequence. The thousands of people are expected to witness the game, and the team will be sold out.

Central's defeat last year at the hands of State was a great disappointment, and the team was far superior to the Lexington eleven, but a series of blunders turned victory into defeat at the last moment. The intense rivalry between these colleges will bring out an immense crowd of enthusiastic fans.

DO NOT PUT OFF BUYING YOUR WINTER OVERCOAT

It's a small matter to us whether you buy now or a month or two later, but it's a big matter to you and to every man who seeks the best for his dollars. Now our stock is at its very best—crowded to the limit with fine winter garments—a month later, assortments will be broken and the choicest styles sold out—and two months from now the stock will be a complete wreck, the best all gone and only the less desirable things left for late buyers.

We still pin our faith to Kenton Clothing; it keeps old customers and brings us new. Kenton Clothing will Fit and Wear and Satisfy you better than any other.

Let Us Fit You In A Kenton Suit

Kenton designers provide suits in models to fit men of every shape and build. \$1 A Week Payments

These are the remarkably liberal terms upon which we sell that new and improved sewing machine which was recently invented by Wm. C. Free, which has been so widely advertised in Women's Magazine, and which is revolutionizing the sewing machine business.

The FREE Sewing Machine

Because of the fact that the FREE is made at much lower than the best known sewing machines, we have agreed never to publish the price. You would judge its quality by its cost. You would not believe that absolutely the best sewing machine in the world could be obtained at such a bargain.

Instead of talking price, we have decided to make it easy for you to own the FREE, and find out its quality yourself. We will sell it to you at your own terms, as low as \$1.00 a week, and to show you how we place our whole establishment back of this wonderfully perfect machine without the least qualification, we will let you try it for 30 days. Compare it with any other machine you own, or any other machine you see. If you are not convinced that it is the best machine you ever had, or the most convenient, the most improved, and the lowest priced one do not return the machine to us. We will refund your deposit so that the trial will cost you one cent.

Our reason for making you try it is to show you how much lighter in weight it will be than any other machine. It is so light that you can carry it in your pocket. It is so light that you can carry it in your pocket. It is so light that you can carry it in your pocket.

Bachelors

Man Who Loves Single Blessedness to Be Taxed For His Tendency

The question of whether bachelors should be taxed is again agitating some parts of the country. This time it has been taken up by the Legislature and the Commercial Appeal takes the affirmative on the proposition on the grounds that all bachelors should be taxed, and as single bachelors are luxury, it should be taxed as the other luxuries of life, in fact of the fact, however, that Dr. Johnson says that the married man has many cares, the bachelor no pleasures. Proceeding on the proposition that all men ought to marry and suffer the penalty therefore, the writer takes in the demand to tax those who are so selfish, so not to want to make a woman partner in their misery. A bachelor is one of the most useless spokes in the wheel of civilization. He forgets all of the troubles of matrimony and never knows the horror of walking the floor when the spring of a bed is broken. He is awake all night by its squeak. The tax and tax 'em they are forced to marry. Their money counts up to be a better person than for a selfishness to support the old maid that their families has made in this world.

To Be Told Away.

The "Maiden Home" at Lancaster, one of the first homes, so as was known by its name, "Maiden Home," built in Kentucky to be torn away, is now being torn away for an open house. This old hotel at one time was one of the most beautiful in Kentucky, but that was many years ago. In its olden times when the only road to the west was from Lexington via Lancaster to Somerset, Lancaster was the regular stopping place for night riders. It was a fine old hotel, and its name was well known. It was owned by the late Col. James B. Mason, later by "King" Mason, now circuit clerk. It is built of brick, and the old-time hotel looks out from the roof. This is possibly the last of the old taverns in Kentucky.

Want Damages.

Suit for damages in the sum of \$50,000 was filed last Wednesday afternoon in the District Circuit Court at Paris, by the Paris Tobacco Society against the Louisville & Nashville railroad for the loss by fire at Millersburg of many hundreds of 100 pound kegs of tobacco valued at the amount sued for. The petition alleges that the defendant company, through negligence and defective equipment, caused a storage warehouse containing loaded tobacco to take fire from sparks from a passing locomotive, causing the warehouse and its contents and the contents of another warehouse adjoining to be destroyed.

Miss Daisy Cannon, who is the star of "Nancy" which will appear at the Open House at an early date is not only known through her previous work in the Metropolitan attractions but to many by her celebrated paragraph records.

As a comedienne when Miss Cannon was especially engaged by the Edison Phonograph Co. to make two records a month and her records are great sellers and very popular.

Persons having her records are especially delighted to see this article and her singing some of her famous songs and to note the comparison between her own fondness and those heard through the phonograph. Many who are well acquainted with her great records will be anxious to see just how this tiny prima donna looks and acts so as to better appreciate her records therefore.

Electric Chair

Soon to Be Completed At Eddyville.

The old time barbarous way of inflicting the death penalty in Kentucky will soon be a thing of the past, as the work of installing the death chair at Eddyville penitentiary is going on steadily and will be ready for use in a few weeks. The electrocution law was introduced on June 14th and if a crime is committed after that time for which the death penalty is imposed, the condemned man will be electrocuted. There has been a notable change made in the prison at Frankfort. The old penitentiary at that place will soon be converted into a reformatory and this is one of the principal reasons the death chair was located at Eddyville instead of Frankfort. It is hardly probable the death penalty will be inflicted in a reformatory. The Prison Commission will be ready in a few months to begin the transfer of the prisoners. All prisoners over thirty years of age will be taken to Eddyville and all under thirty will go to Frankfort. No matter what crime, that meets the requirements as to conduct can be paroled and quite a number are now being granted.

Shepherd-Bush.

Mr. and Mrs. John J. Shepherd, of near Paint Lick, Ky., celebrated their 25th marriage anniversary at their comfortable home last Sunday, Nov. 20. An elegant course dinner was served. They received a number of nice presents. Mr. Shepherd is 72 years old, his wife 67. It was a most enjoyable occasion. The following were in attendance: Mr. and Mrs. J. W. Shepherd, Mr. Franklin S. Cockrell, Mr. and Mrs. G. B. Shepherd, Mr. and Mrs. J. I. Shepherd, Mr. and Mrs. D. D. Shepherd, Mr. J. H. Shepherd, Mr. and Mrs. W. E. Ryan, Miss Mary E. Cockrell, Mary E. Shepherd, George B. Shepherd, Richmond, Kentucky; B. Shepherd, Paint Lick, and Julia Bryan, Cincinnati, Ohio. They have twenty-three living grand children and one great grand child.

High License.

Probably the highest amount ever paid in Kentucky for saloon license will now be charged in Bowling Green. The City Council passed an ordinance fixing the saloon license at \$5,000. Notwithstanding this steep figure there were eight applicants for license as soon as the ordinance was passed. This will give the city an income of \$40,000 a year from saloon license, which is more than any city of this size ever derived from saloon license before.

Gov. Wilson Issues Thanksgiving Proclamation.

The President of the United States, has, by a public proclamation, set aside Thursday, the 24th day of November, 1910, as a day of thanksgiving to God, and in harmony with that proclamation and the spirit of our Commonwealth and all of its people, I issue in this action the President.

"The land and people have so much to be thankful for and I call upon our people to pray to God's right and justice to prevail in all lands and throughout our land and in every neighborhood thereof. We are thankful for the blessings of the government of the people, by the people and for the people. We are thankful for the many blessings and bounties bestowed upon us. We are thankful for those in His providence and His wisdom. We should give account that we will cherish and obey His laws and keep with each other the covenants of our own laws and covenants, to be honest to the Lord of hosts and to bring blessings to the Commonwealth. Let us pray that He will bring it to pass that every soul shall have an equal chance before the law and that this Commonwealth shall grow rich in the true spirit of the old Kentucky home. Let us welcome every useful worker and citizen, man or woman, let us do all in our power to keep and hold the love, friendship, good will and loyalty of all who are with us now."

"Now, therefore, I, Augustus E. Wilson, Governor of Kentucky, have set aside and do hereby fix the twenty-fourth day of this November, 1910, as a day of thanksgiving and prayer, and ask that in as far as in lies, all shall cease from all business, and in our homes and places of worship truly thank our God for his blessings and gracious providence, and pledge to Him to keep our covenants with our God and each other of faithful service, human kindness, patient and steadfast endurance of the tasks of life and earnest good work to the end that we may hope for continued and renewed blessings."

"In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of Kentucky to be affixed."

"Done at Frankfort, this fourteenth day of November, in the year of our Lord nineteen hundred and one, and in the one hundred and nineteenth year of the Commonwealth."

AUGUSTUS E. WILSON,
Governor of Kentucky.
By Dea L. Bruner, Secretary of State.

Newspaper Errors.

Some people seem to think they prove their own brilliancy by being able to point out errors in a newspaper. After taking their leisure to pick out flaws in work that had to be done in a hurry they call the newspaper man by telephone or mail him on the street for wrong capitalization or a slight infelicity if they can find nothing more serious. Every one makes mistakes in his profession, but with most people only the loose know about it. The newspaper man's mistakes grow in spread out for all the world to see. The conditions of newspaper making demand that it be done at high pressure. If the editor waits to his task with the extreme caution manifested by the lawyer when he writes a will there would not be time to do much writing. And few people realize what infinite pains even under existing conditions are taken to avoid error so far as possible. The bulk of the mistakes are the result of inaccurate information given to reporters.

The Woman's Tonic

Mr. Vera Wallace, of Sanger, Tex., writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.

The Imperial Double Disc

In the illustration below the Double Disc is shown in the position of turning. Note the action of the Flexible (Quinted) Frame Construction which permits the Harrow to turn practically on its own ground. The blades do not track at any time, there is no interference of parts, and the turn is made without extra exertion from either driver or team. There is no strain on any part of the Harrow and it turns just the same as when going straight ahead. The Flexible Frame is a very important, in fact indispensable, feature in a Harrow. It is the only feature which will allow the Harrow to turn without a severe twisting strain in the frame and leave a series of holes and ridges at the turning points.

The Imperial Double Harrow requires no more skill, ability or exertion than an ordinary single Harrow. It is simple in construction and easy to handle and can be used wherever a single Harrow can be used. It is made in 6, 8 and 12 foot widths suitable for 2, 3 or 4 horses. It is moderate in cost, being materially less than the cost of two single Harrows. But price should not be the prime consideration. Efficiency and capacity should come first. The question should be, will the Harrow do enough better work per horse and per acre to make it a good investment. It certainly will. In quality of work, better pulverizing, more perfect leveling, it is worth all its cost and more. In capacity it is the equal of two single Harrows of the same width, and in the saving of time, labor and horses, it easily pays for itself in a single season.

All that we claim for the Imperial Harrow we guarantee to perform in the field. It is sold on this condition, the purchaser himself will be the judge of results.

Thanksgiving Proclamation Issued by President.

By the President of the United States of America: A Proclamation.

This year of 1910 is drawing to a close. The records of population and harvests which are the index of progress, show vigorous national growth and the health and prosperous well-being of our communities throughout this land and in our possession beyond the seas. These blessings have not been achieved in vain. In the hands of the people, but overflow and abundance. They are the blessings and bounty of God.

We continue to be at peace with the rest of the world. In all essential matters our relations with other people are harmonious, with an ever-growing feeling of friendship and respect, and recognition of mutual dependence. It is especially to be noted that during the past year great progress has been achieved in the cause of international and the peaceful settlement of international disputes.

Nor, therefore, I, William Howard Taft, President of the United States of America, in accordance with the wish of the civil magistrate since the first settlement in this land and with the establishment from the foundation of this government, do I suspend Thanksgiving, November 24, 1910, as a day of national thanksgiving and prayer, exhorting the people on that day to be in their churches for the praise of Almighty God and to return heartfelt thanks to Him for all His goodness and loving kindness.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the City of Washington this 10th day of November in the year of our Lord one thousand nine hundred and ten, and of the Independence of the United States the one hundred and thirty-third.

Good Advice.
Now that there has been so much talk about the control of the trust, the thing the farmer to do to save his land from the grip and to put back some of the soil has been waiting for the last few years, to devote his attention to the raising of something that will make him rich and muscle and to educate his children, who have been kept out of school too many days. If he can get over the habit of cultivating tobacco, which is a few acres, which can be done with little loss of time. Eggs, sheep, cattle, wheat and all other farm products are bringing good prices, plant a variety—keep your hand and be better off in the end.

The many friends of Howard Canitz, the crank Kentucky lawyer, who resides in Horseville, and who has been with the Pittsburgh National League, for the past seven years, will read the following telegram from Pittsburgh with much regret: Will Canitz be with the team next season? President Bruff, of Pittsburgh was asked.

"He will not," came the reply. "Canitz has been given the choice here, and has failed to take advantage of the opportunity which presented themselves. We tried to deal fairly with him, for some reason or other we couldn't get along. He will be disposed of and I believe this will please him. I know he isn't anxious to play with us again, and we will have, in the future, some better players who are satisfied and who are willing to live up to the club discipline."

"We have \$25,000 this year for new players. Some of them look very good, and it may be that they will fill any holes that might be made. Steele and Perry give promise of being successful pitchers, if they are Canitz will be missed so much. It may be, too, that we will have players who are good."

Nearing Completion

The Big Panama Canal Will be open for Trade Within a Year From December 1st.

The Panama Canal will be finished on December 1, 1913. This information was given to President Taft last week while he was inspecting the famous Gustum dam, on which he spent several hours. The official date of the opening is January 1, 1915, as Lieutenant-Colonel Goethals desires one year in which to train the canal tenders and to get the machinery working smoothly. Ships in the meantime will be granted the privilege of the canal at their own risk of possible delay incident to inexperienced operation.

In addition it was announced by Goethals that the report of Taft's visit was the forerunner of a request for another \$100,000,000 from Congress, was unfounded. The canal will be completed in 1913, he said, within the \$375,000,000 already authorized.

The President was tremendously pleased at the outlook for an early completion of the great work and congratulated Goethals.

He expressed amazement at the work accomplished since his visit to the Isthmus in February, 1900, but greatly surprised however, at the unanimity of all statements. He exclaimed: "This is a mountain, not a dam." Goethals explained to the President that the informal opening of the canal in 1913 is a sure thing, and that the immediate action on the part of Congress relative to toll rates.

Patronize Them.
When a store advertises it shows that it values your trade enough to ask for it. Your convenience is considered to the extent of making it easy for you to know what is offered in needed goods; the store shows its willingness to go on record in its own statements about its stock and service; the advertising of an article as being of a certain quality, and at a stated price is a sense of contract between the seller and the prospective buyer; the price of advertised goods must be so low that competition cannot meet them; advertising increases sales, enabling the store to accept smaller profits. These are some of the reasons why you should buy from stores that advertise. There are other reasons, and altho' not stated, you profit by them.
